

SWAPNIL HERWADKAR

Glendale, AZ | (413) 479-9181 | swapnilherwadkar98@gmail.com | [LinkedIn](#) | [GitHub](#) | [Tableau](#)

PROFESSIONAL SUMMARY

Data Analyst / BI Analyst with 3+ years of experience building SQL-backed datasets, KPI dashboards, automated reporting workflows, and self-service BI solutions. Skilled in SQL, Power BI, Tableau, Looker, Python, Snowflake, MySQL, ETL pipelines, data validation, and stakeholder reporting. Saved 60+ hours/month, reduced reporting turnaround by 30%, and improved operational efficiency by 35% through automation and dashboard delivery.

SKILLS

Analytics & BI: SQL, Power BI, Tableau, Looker, Excel, KPI Reporting, Executive Dashboards, Self-Service BI, Interactive Dashboards

Data Platforms & Modeling: Snowflake, MySQL, Redshift, BigQuery, SAP HANA, SAP BW, Azure Data Factory, Alteryx, Data Modeling, Reporting Views, Data Mapping

Programming & Automation: Python, Pandas, NumPy, Scikit-learn, REST APIs, GitHub, SQL Automation, ETL Pipelines, Workflow Automation

Data Quality & Business Analysis: Data Validation, Data Governance, QA Checks, Root Cause Analysis, Requirements Gathering, Stakeholder Management, UAT, Agile, JIRA, Confluence

WORK EXPERIENCE

Data Analyst | Community Dreams Foundation | Oct 2024 – Oct 2025 | Contract

- Translated Dreamline workflows for homeowner intake, contractor matching, incentives, and project status into KPI definitions, reporting requirements, and dashboard acceptance criteria.
- Automated SQL-driven reporting workflows and sustainability KPI tracking, reducing manual data processing effort by 25% and improving access to operational insights.
- Optimized MySQL reporting datasets and Power BI, Tableau, and Looker layers using query tuning and reusable BI logic to improve dashboard performance.

Data Analyst II | Accenture | Nov 2022 - Jun 2023

- Developed SQL and Power BI KPI dashboards for recurring operational reporting, reducing report turnaround by 30% and improving decision speed by 20%.
- Automated SQL ETL/reporting pipelines with scheduling, error handling, retries, alerts, and QA checks, saving 60+ hours/month and reducing inconsistencies by 35%.
- Standardized KPI definitions, data mappings, validation rules, and reporting documentation, cutting reporting/compliance errors by 40%.

Data Analyst I | Accenture | Feb 2021 - Nov 2022

- Optimized high-volume SQL queries using indexing, partitioning, CTE refactors, and window functions, reducing query execution time by 15%.
- Integrated SAP HANA/BW, ERP, and source-system data into reporting layers, improving workflow efficiency by 35% for operational analytics.
- Reconciled ERP, SQL, and reporting-layer data to resolve client-vendor inconsistencies, improving accuracy by 10% and reducing discrepancies by 20%.

PROJECTS

FIFA World Cup 2026 Sponsorship Analytics Platform | Snowflake, Python, Power BI, Streamlit, OpenAI | [GitHub Link](#)

- Simulated a global sponsorship analytics workflow with Snowflake, Power BI, and an OpenAI-powered Streamlit agent to convert business questions into SQL-driven market insights.

Ad Click Prediction Using Machine Learning | Python (Scikit-learn, Pandas), XGBoost, SMOTE | [GitHub Link](#)

- Built a predictive targeting pipeline to identify high-probability ad-click users and improve CTR analysis through feature engineering, SMOTE, and XGBoost.

EDUCATION

Master of Science in Business Analytics | University of Massachusetts Amherst | Sep 2023 - Aug 2024

Bachelor of Engineering in Electronics | Ramdeobaba College of Engineering & Management | Jul 2016 - Aug 2020
